

**Q&A LIVE WORKSHOP**

# **HYDROGEN APPLICATIONS**

*on domestic, commercial  
and industrial appliances*

**ENGLISH LANGUAGE**

**May 20, 2021 | 3:30 PM - 5:00 PM**

The Italian heating industry, first in Europe with a production value equal to 25% of the European total, together with the major national players in research, innovation and energy, can play a leading role in the technological reconversion and consolidation of the Hydrogen supply chain.

Thanks to more than 15 years of expertise gained by Kiwa in Hydrogen Testing, Inspection and Certification, during the live workshop, our experts will answer all your questions concerning the application of hydrogen to appliances in the cooking and heating sector. Please, feel free to write down all your questions and curiosities in the specific box inserted in the registration form.

**May 20, 2021 | 3:30 PM - 5:00 PM**
