

Regulatory Update

Malaysia

From 18th April 2012, the Malaysian Authority, SIRIM, will be more stringently enforcing the terms and conditions for certificate validity as included in Regulation TAC/DOC/01-1.

All SIRIM Approval certificates which have expired and have not been renewed 6 months from the date of expiry will be automatically terminated from SIRIM's Approval database.

Once terminated, if the affected models need to be imported into Malaysia, a new Approval will need to be obtained and a new Approval ID will be allocated.
