

Regulatory Alert - Chile

Modular Approvals no longer permitted

PCS have recently been advised that Modular Approval applications are no longer accepted by Chilean Regulator, *Subsecretaría de Telecomunicaciones* (SUBTEL).

It has been confirmed there will be no retrospective impact on devices already-Approved in Chile, therefore any existing Modular Approval certificates remain valid.

If a module previously Approved in Chile causes interference issues, it will be subject to review by SUBTEL. However, if it operates within the Chilean limits outlined in national regulation *Resolución 755*, interference should not occur and should not subsequently provoke any action from SUBTEL.
