

# Regulatory Update - Ukraine

## **New labelling format for radio and telecommunications terminal equipment imported to Ukraine**

Following the introduction of Decision #224 of February 2016 which concerns a new labelling format for radio and telecommunications terminal equipment being imported in Ukraine, it has been advised that further discussions have been underway at the Ministry of Economic Development and Trade of Ukraine. The Ministry have confirmed that:

1. New products introduced to the Ukrainian market from 1<sup>st</sup> September 2017 should have the following labelling applied:

**UA.TR. YYY**

Where:

UA – stands for Ukraine;

TR – a provisional symbol of a Conformity Assessment Body (CAB) that is assigned to perform conformity assessment to the requirements of technical regulations;

YYY - serial number of the CAB

**Date of Issue: 20<sup>th</sup> July 2017**

2. This new labelling requirement will only apply to devices that fall under Technical Regulation for Radio and Telecommunications Terminal Equipment. Devices that fall under Technical Regulations for EMC, Safety and RoHS will not be affected.
  
3. Devices that have already been Approved and introduced to Ukraine market will not be affected. This requirement only applies to new devices being imported after 1<sup>st</sup> September.
