# Regulatory Update

August 2013

## **Delays Expected to Type Approval Applications in Israel**

Due to several important national holidays in Israel taking place through September, the Type Approval Authorities – Israel Ministry of Communication (for RF / Telecom) and the Standards Institute of Israel (for EMC and safety) will be closed for most of this month.

Delays for Israeli applications will likely to occur throughout September and October.

PCS will follow up closely to expedite the Approval process once Authorities re-open from the holiday period.
