Regulatory Update

China SRRC – CMIIT ID now can be shown electronically in China.

In order to better accommodate the industry tendency, social development, as well as the need for production cost saving, the Ministry of Industry and Information Technology of P.R.C announced on 26th June 2015 that electronic labelling is permitted to show the SRRC CMIIT ID on the device provided that it meets the following requirements –

- 1) The display cannot be removed and/or replaced.
- 2) Instructions are provided to the user on how to locate the CMIIT ID.
- 3) The user can locate the CMIIT ID easily and without the need for special operation required such as entering a password.
- 4) The user can locate the CMIIT ID without the need for special accessories or additional conditions such as inserting a SIM card.
- 5) The device meets all other related laws and regulations of China.

In addition to the above, the CMIIT ID should also be affixed to the outer packaging and user manual of the device and manufacturers should ensure that the CMIIT ID cannot be changed or deleted by any third party.
