

# Regulatory Update

20<sup>th</sup> April 2015

## **Indonesia Changes to Renewals Procedures**

### **SDPPI Certification Products – New regulation, No. 18 – 2014**

SDPPI have implemented changes to the renewals process in Indonesia with immediate effect.

All Type Approval certificates can now only be 'renewed' once following a simplified paperwork only process. Once a renewed certificate has expired, the certification process must be repeated in full, inclusive of local testing for Approval to be continued. A new Type Approval number will also be granted.

The validity period of all certificates remains at 3 years. Local testing will be required every 6 years.
