Regulatory Alert

13 September 2016

Public Consultation regarding creation of a Class License for regulation on the Use and Trade of products operating under 60GHz issued by Office of the Communications Authority (OFCA) in Hong Kong in a form of draft Technical Specification HKCA 1074.

Public consultation on proposed draft technical specification HKCA 1074 was finished on 2nd September 2016 and Authority is currently reviewing received feedback before implementation date can be confirmed.

If the draft version comes into effect, then devices operating on 57-66GHz shall comply with the following requirements:

- Electrical safety requirements: for devices connected to the public telecommunications networks, it shall comply with the electrical safety requirements HKCA 2001.
- Technical requirements and the relevant power levels:
 - EN302 567 with the maximum EIRP 40dBm
 - EN30 550-2 with the maximum EIRP 20dBm
 - FCC part15 with the maximum EIRP 40dBm

PCS will continue to monitor this closely and once further updates are received, customers will be informed accordingly.
